3Dconnexion | NAVIGATE YOUR 3D WORLD™

SpaceMouse™ Pro

Superior 3D Navigation for Professionals

SpaceMouse Pro is the latest addition to 3Dconnexion's line of professional 3D mice. With an advanced ergonomic design and innovative On-Screen Display, it delivers superior comfort and a simpler, more productive workflow. Fifteen large, fully programmable function keys provide you with quick access to frequently used application commands, standard views and keyboard modifiers, while the On-Screen Display lets you check function key assignment. With a full-size, soft-coated hand rest, SpaceMouse Pro supplies you with exactly the right tools at the right time making it an indispensable tool for anyone who works with 3D software.

SpaceMouse™ Pro

Superior 3D Navigation for Professionals

Professional Navigation

The key to SpaceMouse Pro's smooth and intuitive 3D navigation is the patented six-degrees-of-freedom (6DoF) sensor.

Simply push, pull, twist and tilt the controller cap to simultaneously pan, zoom and rotate your digital model or camera positions in 3D space. SpaceMouse Pro's QuickView Keys give you fingertip access to 12 views, making it easier to detect errors, explore alternatives and present your work more effectively for review.

| Pan left / right | Pan up / down | Zoom | Tilt | Spin | Roll |

Advanced Ergonomic Design

The full-size, soft-coated hand rest ensures maximum comfort by positioning your hand perfectly for the controller cap.

Each of SpaceMouse Pro's 15 tactile, fully programmable buttons is conveniently positioned, allowing quick access to frequently used commands.

Actual size

Application Control

SpaceMouse Pro automatically assigns appropriate commands to its four Intelligent Function Keys, and a convenient On-Screen Display provides a visual reminder of function key assignments on your computer screen. The Virtual NumPad lets you input numerical data into your application using the standard mouse, rather than the keyboard.

Want even more? Check out SpacePilot™ Pro
Ultimate 3D Navigation for Power Users

SpacePilot Pro enables professional design engineers to excel in today's most demanding 3D software environments.

- 3Dconnexion patented six-degrees-of-freedom (6DoF) sensor.
- LCD Workflow Assistant plus On-Screen Display.
- QuickView Keys – one touch access to 32 views.
- Dual-function Intelligent Function Keys – easy access to 10 application commands.
- Keyboard Modifiers (Ctrl, Shift, Alt and Esc).
- Full-size, soft-coated hand rest.
